## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,4-6,11 & 13-16 rejected under 35 U.S.C. 102(b) as being anticipated by Powell et al. Powell discloses refrigerator cabinet consisting of an outer shell and a plastic inner shell and comprising: a partition (10) between fresh food and freezer compartment ceiling and consisting of a disposed outer metal shell (16) and an inner plastic liner (18), an expanded styrene bead thermal insulator (22), an elongated strip (28) of flexible compressible and resilient insulating material such as polyurethane folded over that top edge, a pair of channels (30) formed on sides with ledges (32) that supports the partition, a pair of raised flat rims (36) and furthermore tabs (46) formed on the rims.

### ***Allowable Subject Matter***

Claims 2,3,7,8,9,10 & 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
